SUPPLEMENTARY INFORMATION: The Bureau of the Census first began to make these count determinations in 1972 in response to the requests of local governments to establish eligibility for participation in the General Revenue Sharing Program, authorized under Pub. L. 92-512. At that time, the Bureau of the Census established a fee-paid program enabling entities with annexations to obtain updated decennial census population counts that reflected the population living in the boundary change areas. The Bureau of the Census received funding from the U.S. Department of the Treasury to make those determinations for larger annexations that met prescribed criteria and for the new incorporations. The General Revenue Sharing Program ended on September 30, 1986. The Bureau of the Census continued to fund the count update operation through fiscal year 1995 for the large annexations and through fiscal year 1996 for newly incorporated areas. There is no funded Federal legislative requirement that this work continue.

The Bureau of the Census will renew the program in the year 2001, after the availability of Census 2000 data, for those entities that desire the service, provided that any and all costs associated with this work are borne by the local governmental entity.

Authority to continue this program on a fee-for-service basis is contained in Title 13, United States Code, Section 8.

Dated: May 13, 1998.

James F. Holmes,

Acting Director, Bureau of the Census.
